Walkthrough

From Darkroot Garden

1. Use the elevator behind the bonfire cave to enter Flying Dragon Valley.
2. Encounter the first Lightning Drake immediately after arriving.
3. Continue across the bridge to face another Lightning Drake. Three more wait further in.
4. Avoid engaging multiple drakes at once; lure and fight them one at a time.
5. Ignore the large gate leading to New Londo Ruins as it cannot be opened from this side.

6. Cross the bridge or head left to encounter the Dragon Zombie and progress toward Blighttown or New Londo Ruins.

From Blighttown

1. Exit the elevator and continue upward to reach the opposite side of Flying Dragon Valley.
2. Encounter a Lightning Drake and the Dragon Zombie near the cliff path.
3. Proceed straight to find the iron door to New Londo Ruins (requires the **Master Key** or **New Londo Ruins Key**).
4. The treasure near the Dragon Zombie includes **Astora's Straight Sword** and **Dragon Crest Shield**.

From New Londo Ruins

1. Enter through either of two routes:
 - **Firelink Shrine-side Door**: Requires **Master Key** or **New Londo Ruins Key**.
 - **Watergate**: Opens after using the Seal Key to drain New Londo.
2. For the **Firelink Shrine-side Door**, proceed through the cliffs to encounter the Dragon Zombie and reach the Blighttown path.
3. For the **Watergate**, advance toward Darkroot Garden while defeating Lightning Drakes.

Shortcuts

None explicitly present, but the **Master Key** unlocks the door between New Londo Ruins and Flying Dragon Valley, providing early access.

Soul Farming

Lightning Drakes:

- Each Drake provides a moderate amount of souls.
- Repeatedly lure and defeat the three drakes near the large gate for a safe farming loop.
- Use ranged attacks like poison arrows for a safer approach.

Notes

- Falling hazards are a constant threat due to the narrow pathways.
- Poison arrows are highly effective against both Lightning Drakes and the Dragon Zombie.
- The **Dragon Crest Shield** and **Astora's Straight Sword** are valuable early-game items for players seeking good elemental resistances and Divine weapon properties.

Trivia

- The **Dragon Zombie** is one of the few unique enemies that doesn't respawn after being killed.
- The **Red Tearstone Ring** found in this area is one of the most useful rings for high-risk players, providing increased attack power at low health.
